

Peak Bonus	Upfront	Multiplier	Cap
EPX Payanywhere and PayTrace	**$600**	**14X**	**$10,000**
EPX Non-Payanywhere	$300	12X	$5,000
Global/FD	$200	4X	$2,000

Peak Bonus & Free Equipment Placement Guidelines

- Eligible for all merchant types, except Payanywhere mobile “Pay as you go” (PAYG) merchants. PAYG merchants will be eligible for a $50 flat Activation Bonus.
- No pricing requirements. Price merchants however you want! Your buy rates and costs will still apply.
- No Early Termination Fee/Cancellation Fee required.
- Place free equipment with a minimum $5 Monthly Basic Service Fee and $25 Monthly Minimum Discount Fee! (Not required with Flat Rate Pricing.)
- Activation Bonus will be paid on the next business day after the merchant activates. (Next-business-day payments may be subject to banking institutions’ cutoff ACH requirements to allow for payment processing.)
- Activation is defined as total batches (of $300 in volume or more) deposited to the merchant. Note: American Express & PIN debit not included in volume calculation.
- Regardless of merchant type, if a merchant does not activate within 60 days of the date of approval, or if the merchant stops processing and is not active (no authorization or settlement of merchant card transactions) for more than 30 consecutive days, is closed, or ACH rejects within 12 months from the date of the Profitability Multiplier payment, total bonus will be recovered.
- Existing accounts and seasonal merchants are not eligible. One bonus per physical location only, with the exception of merchants with unique Principals/Fed Tax IDs who meet program requirements (i.e. salon multi-merchants).
- Profitability Multiplier Bonus calculation is based on the first full month (excluding December) of processing volume after the activation month. For example: If activation ($300 or more in non-AMEX/PIN debit volume) is in February, the bonus calculation is based on March volume. Our retained revenue will be multiplied by 14 (EPX PA), 12 (EPX Non-PA), or 4 (Global Payments/First Data) up to $10,000 (EPX PA), $5,000 (EPX Non-PA), or $2,000 (Global Payments/First Data). If in any month the Profitability Multiplier Bonus is less than the amount paid as the Upfront Bonus, then we will debit (true-down) the difference. Sales Partner shall receive the positive difference (true-up) between the Profitability Multiplier Bonus and the Upfront Bonus. All debits and credits will be reflected in the Profitability Multiplier Bonus report generated on or around the 15th of each month in the Sales Partner Portal.
- PCI+, Payments Hub, and similar non-processing fees shall be excluded from Profitability Multiplier residual calculations.
- Qualified merchants can receive one free terminal per physical business location. All equipment associated with a MID must be PA-based equipment to qualify for the maximum bonus.
